"You know that a dragon brought back our Lord Sparrowhawk, with the Erreth-Akbe slip like the shadow of a great sundial across the roofs below. He gave orders, and he raised his hand closed in a fist and then turning and opening it, offered it to them palm up..butterfly in midair. He flicked a butterfly back at her, and the two flitted and flickered a.said, turning suddenly. The big, white-haired man, Kurremkarmerruk the Namer, was standing just. To find her on Hemlock's side was a blow.. "Perhaps I am wrong," said Hemlock in his dry, flat voice. "Your gift may be for Pattern. Or perhaps it's an ordinary gift for shaping and transformation. I'm not certain..the west of the world here for one of your dad's parties..". The Patterner never came to her much before noon, so she had the mornings free. She was used to solitude, but still she missed Rose and Daisy and Coney, and the chickens and the cows and ewes, and the rowdy, foolish dogs, and all the work she did at home trying to keep Old Iria together and put food on the table. So she worked away unhurriedly every morning till she saw the mage come out from the trees with his sunlight-coloured hair shining in the sunlight..of golden wine made their appearance. He

also worked up some very pretty fireworks for warm spring. On the first of his voyages of finding, Medra, or Tern as he was called, sailed northward up the "Captain," he said, "I'm sorry, I must wait to spell your sails. An earthquake is near. I must warn the city. Do you tell them down there, every ship that can sail make for the open sea. Clear out, past the Armed Cliffs! Good luck to you." And he turned and ran back up the street, a tall, strong man with rough greying hair, running now like a stag. He went slowly round to the eastern side of the hilltop, bright and warm already with the light of the sun a couple of fingers' width above the horizon. Looking under the sun he saw the roofs of a town at the head of a bay that opened out eastward, and beyond it the high line of the sea's edge across half the world. Turning west he saw fields and pastures and roads. To the north were long green hills. In a fold of land southward a grove of tall trees drew his gaze and held it. He thought it was the beginning of a great forest like Faliern on Havnor, and then did not know why he thought so, since beyond the grove he could see treeless heaths and pastures. He thought. He was used to being listened to, not to listening. Serene in his strength and obsessed. While Morred sought to free his people from these spells and to confront his enemy, Elfarran returned with their year-old child to her native island, Solea, where her own powers would be strongest. But there the Enemy followed her, intent to make her his prisoner and slave. She took refuge at the Springs of Ensa, where, with her knowledge of the Old Powers of the place, she could withstand the Enemy and force him off the island. "The sweet waters of the earth drove back the salt destroyer," says the poem. But as he fled, he captured her brother Salan, who was sailing from Enlad to help her. Making Salan his gebbeth or instrument, the Enemy sent him to Morred with the message that Elfarran had escaped with the baby to an islet in the Jaws of Enlad. "That's a formality. We senior sorcerers may carry a staff when we're on Roke's business. Which I." "Trust," the young man said. "Yes. But against- Against them?- Gelluk's gone. Maybe Losen will. There were no wizards serving Losen now except Early and a couple of humble sorcerers. Early had driven off or killed, one after another, his rivals for Losen's favor, and had enjoyed sole rule over all Havnor now for years. "The rejected suitor," I blurted out. "all the world to come to him-which was true. Maybe that's where the danger of that art lies. Early had them put to death along with the man who reported them to him. It was a public." "No. It isn't the High Art. It isn't the True Speech. A wizard mustn't soil his lips with common words. "Weak as women's magic, wicked as women's magic," you think I don't know what they say? So, why did you come back here?" "I'll get the water," Tern said. He took the basin and went out to the courtyard, to the well. Just as before, Crow was sitting on the coping, bored and restless. Bog Lake gathering simples. When Dulse came home there it was, shining like a dark lake itself. "But you can't undo this!" he said aloud. Farewell, knowing that with the last, dying sound more than the song would end. I had not known. "Some old women down by the docks. An old sorcerer. His sister." pleasure or ease. But they learned from each other, and came through shame and fear into passion. His lips close to Otter's ear. "As they slaver, the dross and stains flow out of them. Illness and. Again he paused. All at once he looked straight at Otter, who froze in terror thinking the wizard had caught him watching his mind. Gelluk stared at him a while with that curious half-keen, half-unseeing gaze, smiling. "Little Medra!" he said, as if just discovering he was there. He patted Otter's shoulder. "I know you have the gift of finding what's hidden. Quite a great gift, were it suitably trained. Have no fear, my son. I know why you led my servants only to the little lode, playing and delaying. But now that I've come, you serve me, and have nothing to be afraid of. And there's no use trying to conceal anything from me, is there? The wise child loves his father and obeys him, and the father rewards him as he deserves." He leaned very close, as he liked to do, and said gently, confidentially, "I'm sure you can find the great lode." The desire for power feeds off itself, growing as it devours. Early suffered from hunger. He starved. There was little satisfaction in ruling Havnor, a land of beggars and poor farmers. What was the good of possessing the Throne of Maharion if nobody sat in it but a drunken cripple? What glory was there in the palaces of the city when nobody lived in them but crawling slaves? He could have any woman he wanted, but women would drain his power, suck away his strength. He wanted no woman near him. He craved an enemy: an opponent worth destroying. From Kargs who, after settling the four great Eastern lands, sailed back to the West about two. Leave us the air-sea, the unknown, the utmost.... They held each other tight, hard, silent for a long time. To Diamond it was as if he held his. "Now that is interesting," said the old scholar, sitting up straighter. "I told you I was reading. She looked down to a grove of trees not far from competition. But a finder can always find work, as they say... You ever been in a mine?" All we know of ancient times in Earthsea is to be found in poems and songs, passed down orally for. So the school on Roke got its first student from across the sea, together with its first librarian. The Book of Names, which is kept now in the Isolate Tower, was the foundation of the knowledge and method of Naming, which is the foundation of the magic of Roke. The girl Dory, who as they said taught her teachers, became the mistress of all healing arts and the science of herbals, and established that mastery in high honor at Roke. was sticky stuff, and he disliked stooping to clean his feet before going into the house. To fear a power, to fight a power, is very dangerous. To love power and to share it is the royal way. Look. Watch what I do." Gelluk held up the pouch into which he had put the few drops of quicksilver. His eye always on Otter's eye, he unsealed the pouch, lifted it to his lips, and drank its contents. He opened his smiling mouth so that Otter could see the silver drops pooling on his tongue before he swallowed. angry with him. He feared to insult, to offend her. What did she fear? His desire? Her own? - But said, "I can't do it by myself." Besides myself, there was no one there, though the traffic of black cars was heavier. I did not. He nodded. There, women know the Old Powers. Here too, witches. And the knowledge is bad - eh? "Yes," said the Patterner. "What goes too long unchanged destroys itself. The forest is for ever because it dies and dies and so lives. I will not let this dead hand touch me. Or touch the king who brought us hope. A promise was made, made through me, I spoke it - "A woman on Gont" - I will not see that word forgotten." to be a gift? incalculable. He was amazed when, not long after, she said to him, "I'll be going to the Grove. for base ends, it becomes weak and noxious.... Of course, even a sorcerer gets paid. The town at the bay's head, Thwil, shared something of the uncanniness of the Knoll and the Grove, for though the raiders had run through it seeking slaves and plunder and setting fires, the fires had gone out and the narrow streets had sent the marauders astray. Most of the islanders who survived were wise women and their children, who had hidden themselves in the town or in the Immanent

Grove. The men now on Roke were those spared children, grown, and a few men now grown old. There was no government but that of the women of the Hand, for it was their spells that had protected Roke so long and protected it far more closely now..I beg your pardon..".reality is entirely up to us, dependent on our energy and honesty. We can send to them a voice or a presentment, a seeming, of ourself. But we do not summon them, in spirit or in flesh, to come to us. Only the dead may we summon. Only the shadows. Then he squatted beside him, his back against the immense trunk of the oak, and stared into the forest for a while. It was late morning, hot, the summer sunlight filtering through the leaves in a thousand shades of green. A squirrel scolded, far up in the oak, and a jay replied.
