But it has to be something like that.".Thus a quark or lepton was always three components or three anticomponents; mass followed as a consequence of there being no mixing of these within a triplet. "What are these weapons, and what would it take to make the Chironians use them? I've got to have more information." Kalens looked disdainfully down his nose. "My staff contacted him through the Chironian communications system. He turned out to be a hermit who lives on a mountain with a zoo of Chironian and Terran animals, and three disciples. They're all quite insane." "Don't forget--a round of beers too," Colman reminded Sirocco. The girls whooped their approval.
