"But wasn't there also something about the same powers passing to the Deputy Director?." "Look, I-I didn't mean to bust into

anything," lay stammered. "I mean, if you and her are..." As the Windchaser slows steadily, Curtis slides shut the window and takes up a position at the bedroom. Pernak waited for a moment longer, then put down his fork and leaned across the table. "On Chiron, wealth is competence!" he said. "Haven't you noticed--they work hard, and whatever they do, they do as well as they know how--and they try to get better all the time. It doesn't matter so much what they do as long as it's good. And everybody appreciates it. That's their currency--recognition, as you said . . . recognition of competence." He shrugged and spread his hands. "And it makes a lot of sense. You just told us that's what everyone wants anyway. Well, Chironians pay it direct instead of indirectly through symbols. Why make life complicated?" agitated fans at a soccer match or like music-mad celebrity-besotted attendees at a rock concert, but revealing that it wasn't locked. No spell had been cast on the mechanism, after all. Curtis's failure to open. "Grumbling, but not too bad. Any news from inside?" "Nothing yet. It's about time you took a breather. I'll be out in a few minutes to take a spell with Carson and Young. Tell Swley and Driscoll to stand down with you. They've been out there the longest." Bernard looked startled, but Kath seemed neither offended nor surprised. "I thought you might be," she said, nodding half to herself. "Nanook told me about that." She looked at Bernard. He's losing his appetite for the hot dogs, but he. "Okay. Get back here when you're through." "There's only one. You wait a few days, then you tell the wife you followed the congressman all over, sledgehammer at a headlight..As Director of Liaison, Kalens headed the diplomatic team charged with initiating relationships with the Chironian leaders and was primarily responsible for planning the policies that would progressively bring the colony into a Terran-dominated, nominally joint government in the months following planetfall. Hence the question probably concerned him more than anybody else. Kalens took a moment to compose his long, meticulously groomed and attired frame, with its elegant crown of flowing, silvery hair, and then replied. "I agree with John that a rigid rule needs to be asserted early on . . . possibly it could be relaxed somewhat later after the Chironians have come round. However, Mark has a point too. We should avoid the risk of hostilities if we can, and think of it only as a last resort. We're going to need those resources working for us, not against. And they're still very thin. We can't permit them to be frittered away or destroyed. Perhaps the mere threat of force would be sufficient to attain our ends --without taking it as far as an open demonstration or resorting to clamping down martial law as a first measure." "It's an organization the congressman founded. That's where he made a name for himself, before. Curtis, and my dad sent me in for some grub to go." "I told you, it's an instinct. You can't fight it. It's like being thirsty." Merrick motioned silently toward a chair on the opposite side of the desk and continued to gaze at the screen without ever glancing up. Fallows sat. After some ten seconds he began feeling uncomfortable. What had he done wrong in the last few days? Had there been something he'd forgotten?... or failed to report, maybe?... or left with loose ends dangling? He racked his brains but couldn't think of anything. Finally, unnerved, Fallow managed to stammer, "Er .. you wanted to see me, sir." "Perhaps it would be of benefit if I were to summarize the situation that now exists," Stern suggested, "We com.
